

Declaration of Formaldehyde

All WISA® Plywood products comply with EU requirements for formaldehyde like E1 and regulation EU 2023/1464 coming into a force in August 2026.

In E1 classification test method of wood-based panels is EN 717-1 (chamber). E1 limit value for plywood is 0,124 mg/m³.

European Union has issued regulation EU 2023/1464 for formaldehyde releasing substances, including wood-based panels. The concentration of formaldehyde released from WISA® Plywood does not exceed the level of 0,062 mg/m³ required by this regulation.
